LinkedIn: omar-ageep-185baa3a1

PROFILE

Mechatronics and Automation Engineering student at Benha National University seeking an internship to gain practical experience in Automation, Robotics, and Programming. Passionate about AI technologies, hands-on projects, and continuous learning.

EDUCATION

Benha National University – Faculty of Engineering *Expected Graduation: 2031*
Mechatronics and Automation Engineering GPA: 3.11/4.00

SKILLS

Technical (Hard Skills): C++, Arduino, SolidWorks (3D Modeling), AI Content Creation, MATLAB basics
Soft Skills: Problem Solving, Analytical Thinking, Teamwork, Leadership, Communication, Time Management

EXPERIENCE

Engineering Intern (60 Hours)
Engine Factory – Arab Organization for Industrialization (AOI) *Cairo, Egypt*

· Completed a 60-hour intensive practical training program focused on engine manufacturing, mechanical systems, and industrial assembly processes.
· Gained hands-on exposure to industrial standards, machinery operations, and safety protocols.

PROJECTS

· **Voice-Controlled Arduino System:** Developed a voice-controlled system using Arduino to control two LEDs via "Open" and "Close" voice commands.
· **Robotic Arm Design:** Designed a fully customized robotic arm using SolidWorks and prepared it for 3D printing.
· Electric Generator Model.
· AI-generated videos and social media designs.

ACTIVITIES

Google Developer Groups (GDG) – Benha National University

- Designed graphics and created promotional videos for social media.
- Supported media coverage of student events.

Arduino Workshop Competition – Participant.

CERTIFICATIONS

Practical Engineering Training Certificate (60 Hours) – Arab Organization for Industrialization (AOI), Engine Factory
Content Creation & Artificial Intelligence – Arab Organization for Industrialization (AOI)

LANGUAGES

Arabic (Native) | English (Intermediate)
